Phase Noise

- Phase noise is the frequency domain representation of rapid, random fluctuations in the phase (frequency) of a waveform. These fluctuations are caused by time-domain fluctuations (jitter) of a signal.
- Phase noise is measured in dB relative to the carrier.
- It is generally denoted in dBc.
- For eg. -80 dBc phase noise means -80 dB down in level from the carrier.

EVENT 02: As part of SOA promotion activity and Out Reach initiatives a two page write up about SOA DSATM will published in Higher Education Review Magazine in the upcoming issue under the title " Top 10th Architecture colleges in India".

The SOA- (School of Architecture)-DSATM: BELIEVES IN DEVELOPING AN INTELLECTUALLY RIGOROUS, INNOVATIVE, COLLABORATIVE AND CREATIVE ACADEMIC ENVIRONMENT

Dayananda Sagar Institutions was established in 1962 by the founder Late Sri R. Dayanadasagar and Late. Smt. Chandramma Sagar under the name of Mahatma Gandhi Vidya Peetha Education Trust at Kumaraswamy layout, Bangalore, Karnataka. From the inception till date the institution has grown to multiple dimensions with various programs and courses spread out over + Campuses. Campus II is DSATM located Opp to RAVISHANKAR, ASHRAM, Kanakpura Road, Bangalore. Presently All the four campuses are managed under the able leadership of Dr. Hemachandra Sagar (Chairman DSU) and DR. D Premachandra Sagar (Vice Chairman and CEO DSU).

The SOA- (School of Architecture)-DSATM believes in developing an intellectually rigorous, innovative, collaborative and creative academic environment. The Department's extensive contributions reflect the program's commitment to the cultural, social, technological and ecological issues of the built environment. Committed to a rigorous and interdisciplinary approach throughout the program, our students are challenged to be creative, innovative, and responsible leaders in the field. The faculty of Architecture are qualified with interdisciplinary specialization from top notch universities (IIT, CEPT, SPA) to provide highly interactive teaching environment and focusing on the latest technology. Faculty of Architecture are committed to imparting quality education and would like to make a difference by making its students look beyond conventions and engage in innovative ways that would benefit the profession and the society at large.

Infrastructure at SOA is carefully developed in response to student and faculty needs; and ensures that there are no boundaries between the discovery, transfer and application of knowledge. SOA has a very well established library, computer lab with advanced design software, model making lab which expose the students to hands on experience, permanent exhibition hall to encourage students to display their creative works. Climatology lab where students allowed to analyze the climatic factors, spacious and well ventilated studio's and gallery lecture hall with audio visual aid.

Gaddam.D. Ramesh,
Director-SOA

The SOA- (School of Architecture)-DSTAM believes in developing an intellectually rigorous, innovative, collaborative and creative academic environment

Visiting faculty are drawn from practicing professionals who bring practical experience to the classroom and academics with more practical and critical approaches. Faculties are following interactive and activity-based teaching where students explore their knowledge effectively along with regular curriculum. The teaching is enhanced with site visits, case studies and study tours through which students gain practical knowledge and contemporary trends in architecture. Every year students are taken to domestic and international tours to Delhi, Gujarat, Pondicherry, Dubai, Cambodia, Vietnam, Bhubaneswar where students get opportunity to enrich their knowledge about diverse architecture of different context.

The Institute has been collaborated with many industries to conduct several events like workshops, industry conclave, seminars which create opportunities to the students to improve their carrier exposure and entrepreneurship skill.
