# BULL TEMPLE, BASAVANAGUDI

On 20<sup>th</sup> Feb., 2017, students, along with faculty members; Ar. Arun Swaminathan, Ar. Govind Rao, Ar. Rhythema Rawat, Prof. Mamtha N, Prof. Anusha, Prof. Pooja B.I; were taken to practically observe and learn about classic example of temple architecture and landscape.

Students learnt how the altitude and height of a design can effect the spirit of the place while observing into the history of the ancient bull temple.

Based on their and learning and experience students were made to sketch different sectional views of the temple complex.

# FREEDOM PARK

Later on the same day students were taken to observe a contemporary counterpart in the form of the Bangalore freedom park.

The freedom park is a construction over the old Bangalore central jail which once held our brave freedom fighters, it is now open to all.

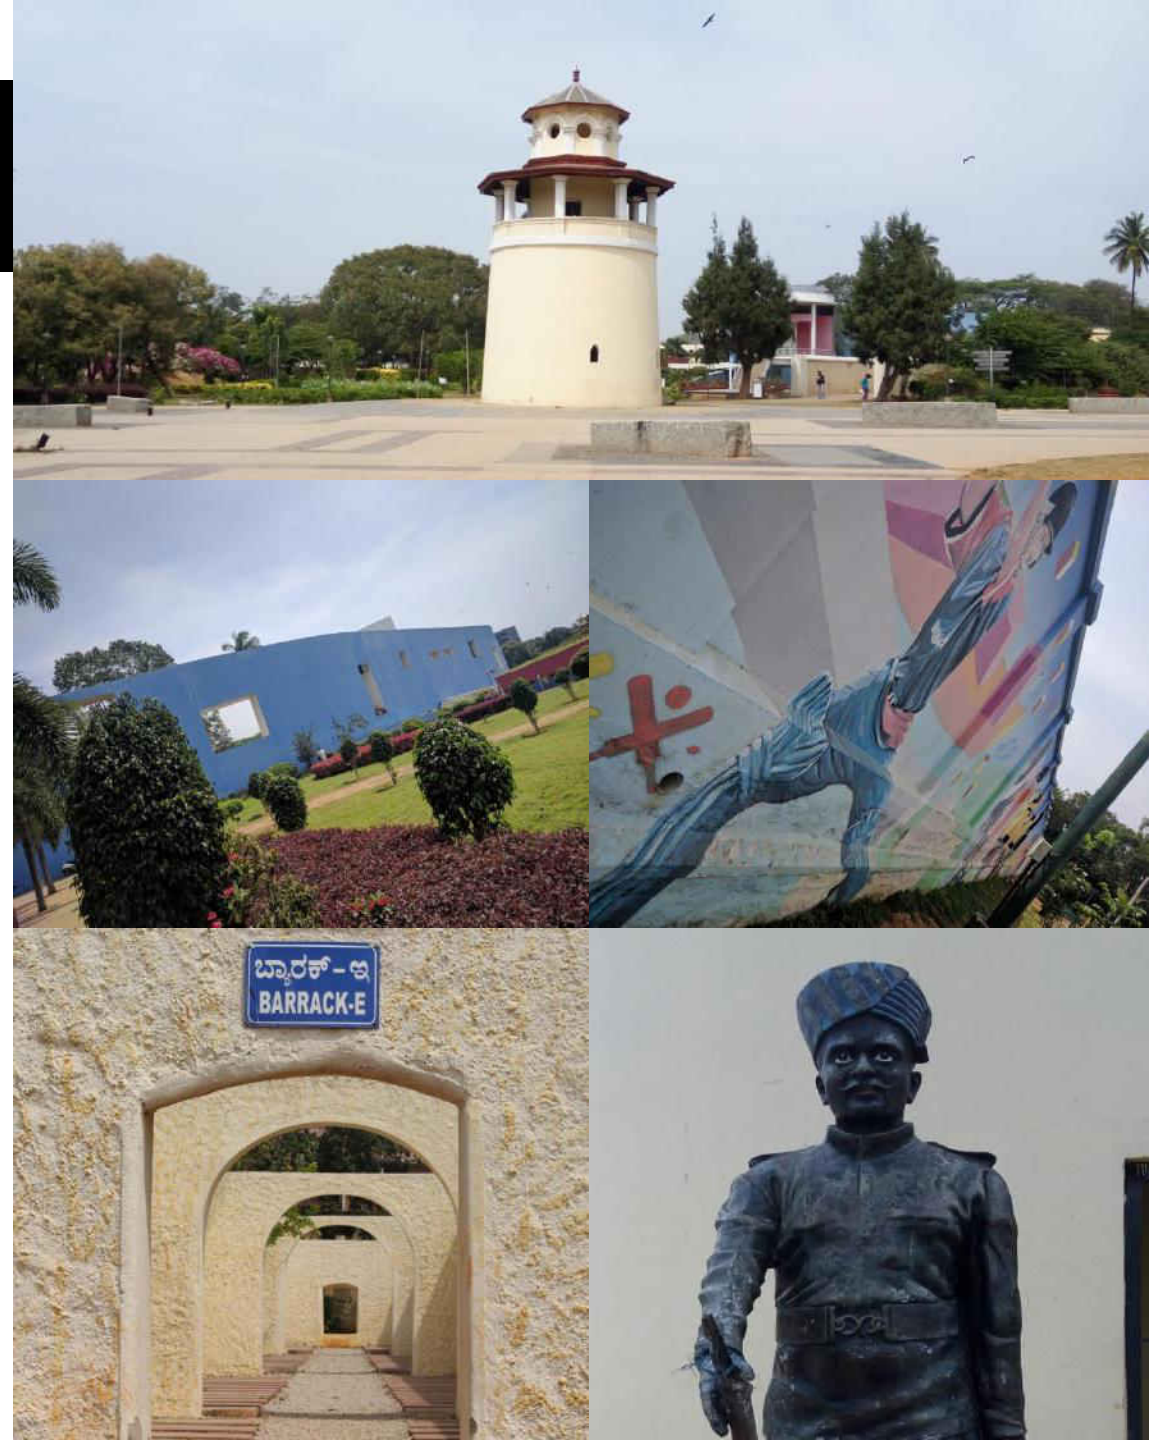

The students were free to observe the different elements of the park both the contemporary remnants of the old jail structure (like the barracks, the hospital and the old jail entrance).

# FREEDOM PARK

Wandering around the park students sketched and noted the emotions that they felt. The professors then discussed these emotions and how these structures depicted them. They further discussed how the contemporary additions merged with the old structure to depict a new feeling.

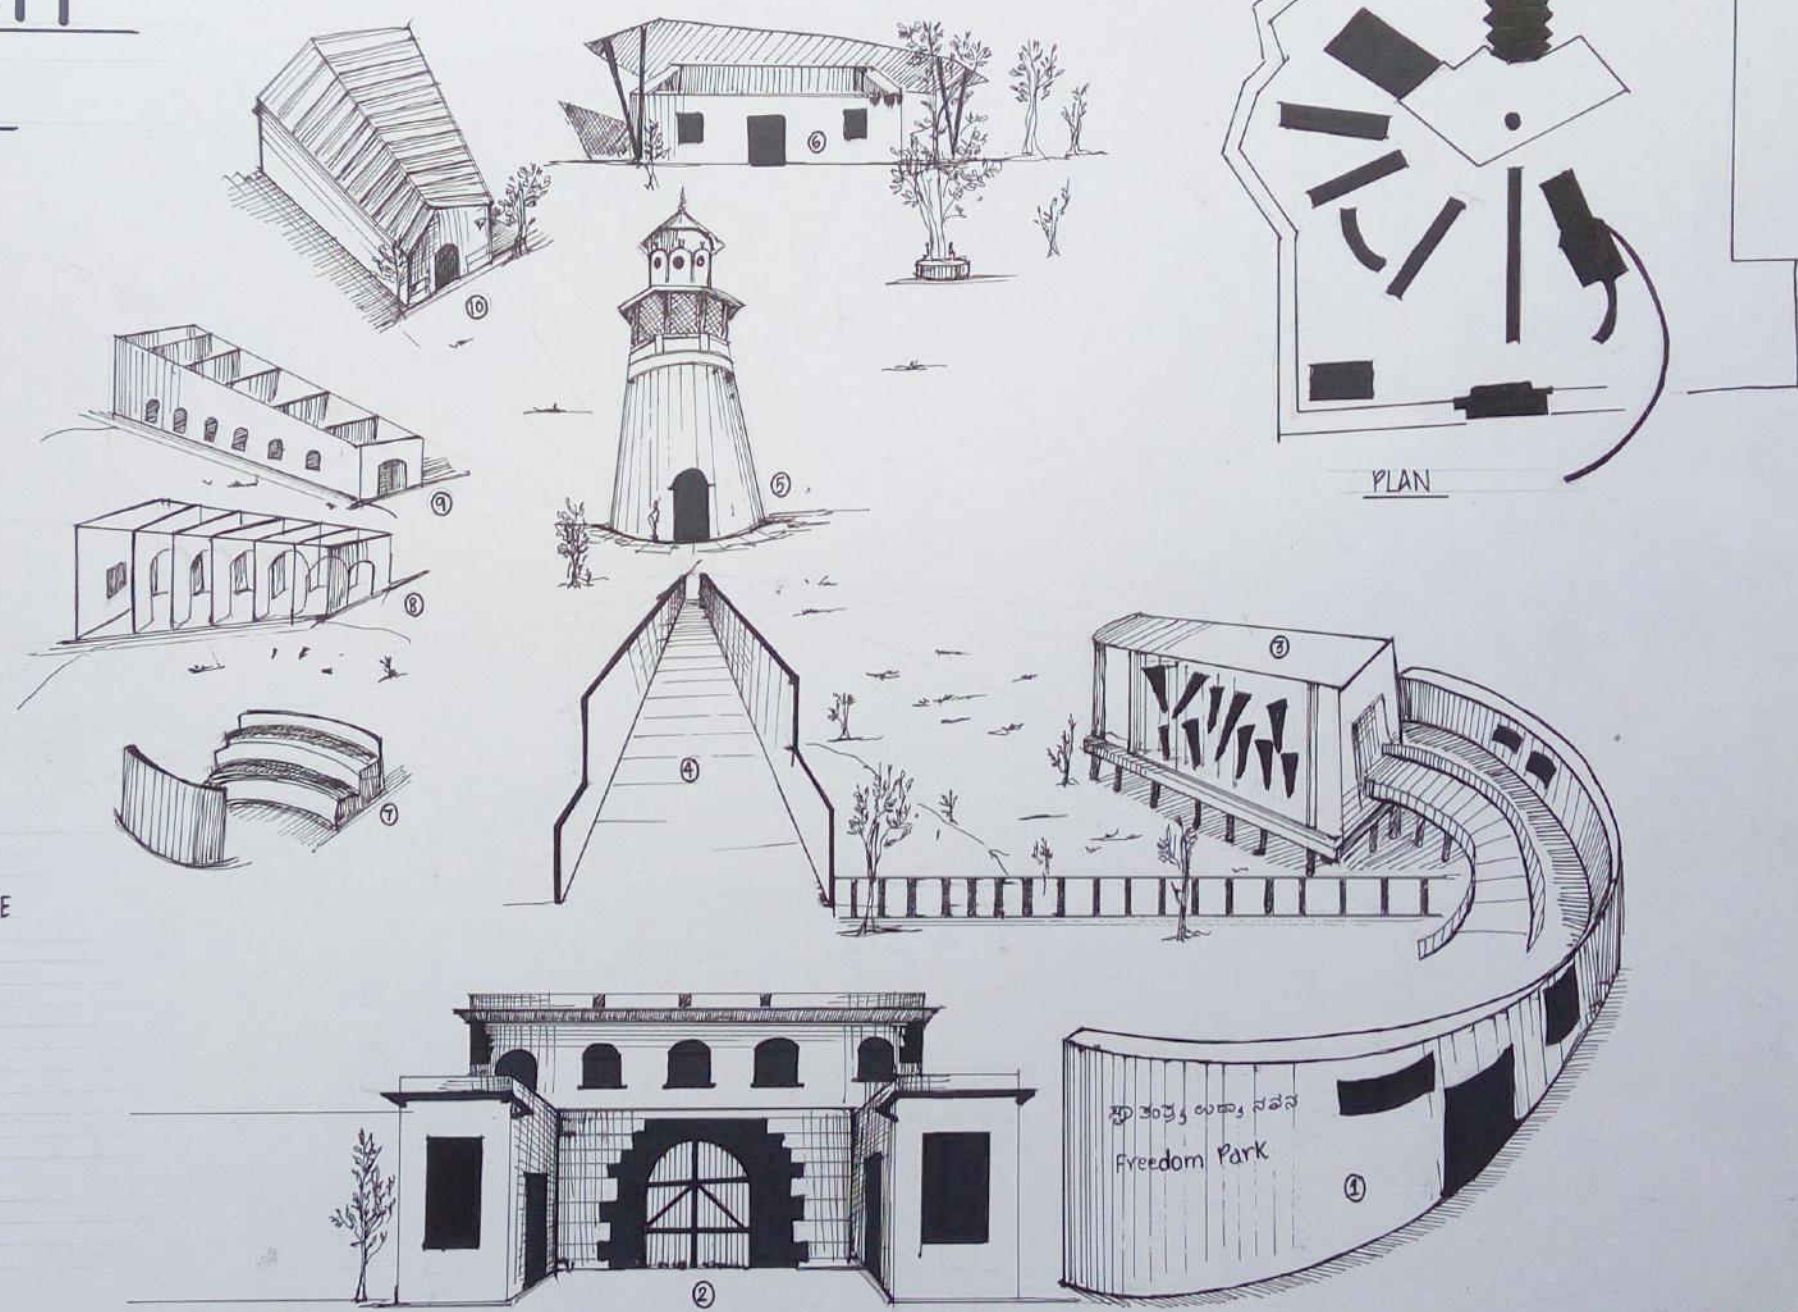

The students then were given a task of mentally mapping the whole area and observing view range from different points.
