Students name	What aspects of this workshop were most useful or valuable?	What would you suggest to improve this workshop?	Overall Rating of Course
Mahaveer M 	The kind of interpretations of a building and realisation of spaces	The time we got for the case study was really less to analyze the building properly	Excellent
Harshini 	The one on one discussions .	More interactive	Very good
Anoushka shome 	The skill of representing something in a simple and more focused manner. And how to analyse a space	The starting was rather unsatisfactory, maybe if they had started off with our level of understand it would have been more fruitful	Very good
