SCHOOL OF ARCHITECTURE

Event Name	E – WASTE COLLECTION DRIVE
Theme	GO-GREEN initiative team is organizing week long E Waste collection drive.
Date	20 th & 28 th MAY 2022
Venue	DSATM campus kanakapura road Bengaluru.

Objectives of the Program/ Event

Electrical and electronic waste has been a significant problem in society. It causes environmental pollution and is responsible for producing lead, mercury, and other toxins and hazardous chemicals. Students and faculty in all department to encourage them towards collection of E Waste and various effects induce by E-waste on our health and environment.

School of Architecture, **Go Green Initiatives** team is organising a week long **E- Waste Collection Drive** in DSATM campus, as a part of a series of Events which are marked for the **World Environment Day 2022**.

We kindly request all of you to actively contribute to this drive and get rid of all E-waste piled up in your work place and at home .

Exciting events are to be followed with this **E -Waste Collection Drive**

Thank you
Team Go Green Initiatives
SOA DSATM

Awareness programme of SOA-DSATM : E-waste—an environment and public health hazard

Details about the event:

Purpose : Dealing with e-waste

About the topic:

- Introduction of E-waste and various effects induced by E-waste on our health and environment .
- Integrated waste management is the best practice to dispose of the E-waste.
- Safe disposal of E-Waste in scientific manner at authorized recycle centers

Resource person/ participants:

- GO –GREEN Coordinators gave Introduction of E-waste and various effects induced by E-waste on our health and environment to all the students and faculty in all departments at DSATM to encourage them towards collection of E Waste in large numbers.

“Plant more Trees, Save Water, Save Electricity, Avoid Plastics, The world is in your Hands”

Vision:

- Encourage students to understand and identify the issues concerned with rapid growth of technology, up gradation of technical innovations, and a high rate of obsolescence in the electronics industry have led to one of the fastest growing e-waste streams in the world.
